

## **Kepner Tregoe**

**GOAL:** Kepner Tregoe analytic tools are used to facilitate handling both routine and non-routine functions. These tools are systematic techniques, and processes, designed to improve your ability to gather, organize, and evaluate information in areas of problem solving, decision-making, and plan implementation.

**BENEFITS OF TRAINING:** At the end of the course you will have all the tools required to implement you own Kepner Tregoe program.

**HOW THE PROGRAM WORKS:** The program features hands-on workshops to bring the techniques to life.

### **PROGRAM OUTLINE:**

You will learn about

- Problem solving
- Decision-making
- Plan implementation
- Situation analysis

**METHODOLOGY:** Training sessions are comprised of lecture, small group workshops, written exercises, PowerPoint and video recording.

**WHO SHOULD ATTEND:** Manufacturing managers and supervisors, engineering, and quality control managers and personnel involved in complex decision-making with many variables of varying importance.
